## Voiceover Script:

I'm from The Bahamas, where opportunities are scarce so to give myself a better shot I left to pursue my dreams through education. I knew there was a risk but couldn't ignore the burning desire to provide for my family and give my brothers and me a chance to chase our dreams.

Although life has been good to me since I took my leap of faith, I'm faced with the ultimatum of pursuing my dreams through a potential job offer or taking the safe route and going home to run the family business.

## Song Lyrics:

### Chorus:

I've got a lot of stuff to figure out  
I'm trying to count a couple stacks dog in big amounts  
I'm trying to have six, six figure bank accounts  
I'm trying to grind so hard that I could buy my mom a house  
I'm trying to stunt up on everybody who doubted me  
It took some time for me to figure out what I could be  
I always knew up in my heart I was a prodigy  
And when my heart on something aint no really stopping me  
(x2)

### Verse:

Life taught me couple lessons  
Like always guard your heart and wear it with protection  
Be careful where you stepping, beware of some people who are your bredren

Because love can be the great weapon  
Or the great blessing  
And that is not a question  
This what I learned from age seven when Grammy went to heaven  
Since then been fighting this depression  
I been looking for direction  
I been looking for a way out  
Im what my momma's prayers about  
Im what my momma's tears about  
I see it all so clear now, got a feeling this our year now  
Im so glad that we're here now  
Got nothing else to fear now  
People cannot call me weird now  
All problems disappeared now  
I feel my time is near now  
I feel my time is near now  
Time to turn it up a gear now
