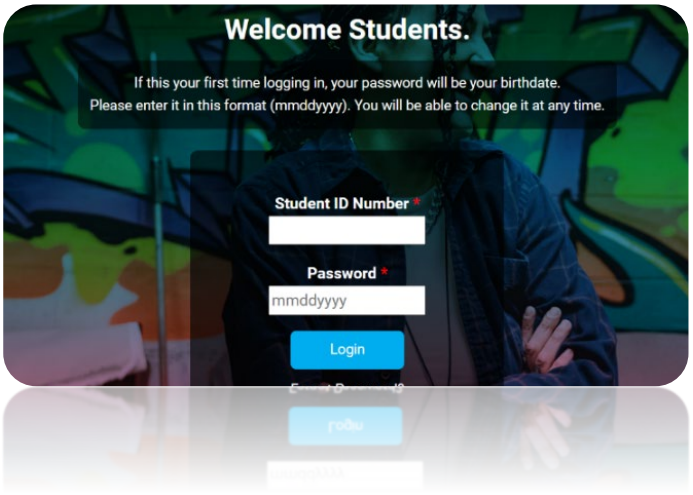
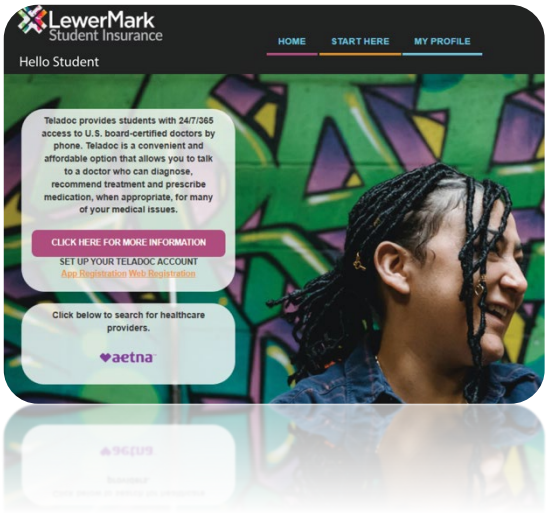
LOGGING INTO YOUR STUDENT ACCOUNT

Go to www.lewermark.com and click the button, "**Student Login**" on the upper right.

Type your student ID number in the space. There must be 9 digits, so if your ID is shorter than 9 numbers, add zeros to the beginning of your ID. *For example, 001234567.* If your ID has a letter, replace it with a zero.

Your default password is your date of birth in order of month, day, then year. *For example, November 3, 2003, would be 11032003.*





The next screen will prompt you to change your password and add a security question. **Do not skip this step.** When you log back into your account you will use your new, unique password.

On your account page, click the menu icon and a list appears. Click "**ONLINE ID CARD**" to bring up your insurance ID card. You can choose to download your card or print it.

We recommend keeping a copy on your phone, so you always have it with you! You will use your card when you go to a doctor or pharmacy. ***Tip****: Tell them you have "Aetna" insurance, not LewerMark.*

Notice and Proof of Claim - Timely Filing Requirement

Written proof of loss must be given to the Program Manager within 90 days after the date of loss or as soon as thereafter as reasonably possible. Notice should include the name of the Covered Student, the Participating School's identifying number, and the Covered Student's contact information, including address, email address, and any other necessary information that may be reasonably required. If services are rendered on consecutive days, such as for hospital confinement, the date of loss will be considered the last date of service. The Program Manager will not deny nor reduce any claim if it were not reasonably possible to give proof of loss in the time required. In any event, proof must be given to the Program Manager within one year after the date of service. If a claim was timely filed originally, but the plan's Program Manager requested additional documentation, the healthcare provider has up to one year to submit the requested information.

SCHEDULE OF BENEFITS

This Policy document is intended to be read in its entirety. To understand all the conditions, exclusions, and limitations applicable to its benefits, please read all policy provisions carefully. Only those benefits elected by each Participating School and shown on its Schedule of Benefits will apply to its enrolled Eligible Students.

The Company has appointed the Program Manager to administer the Policy on its behalf. References to the Program Manager throughout this Policy include the Company where appropriate. Any notice delivered to the Program Manager shall be considered received by the Company.

The *Schedule of Benefits* provides a brief outline of the coverage and benefits provided by the Policy. The benefits summarized in this Brochure may be subject to definitions, exclusions, and provisions. Please see the Policy for full details.

Eligible Student

An Eligible Student is a registered and enrolled student of a Participating School who is all of the following:

1. a legal resident of a country other than the United States, its territories, or possessions;
2. enrolled and actively engaged in Full-Time Studies;
3. has not been granted permanent residency status in the United States, its territories, or possessions; and
4. holds and continually maintains an F-1, J-1, M-1, Q-1 or other approved category of student visa or immigration status.

A Plan Participant is no longer enrolled and actively engaged in Full-Time Studies upon graduation; a Plan Participant and their Covered Dependents, if any, become ineligible for coverage under the Plan upon the Plan Participant's graduation. However, the Plan Participant may be entitled to up to 60 days of continued coverage after graduation if one of the following exceptions apply:

1. The Plan Participant is transferring to another educational institution;
2. The Plan Participant is approved for OPT and, on that basis, qualifies for continued coverage under the terms of the Policy document; or
3. The Plan Participant qualifies for Extended Coverage because they have graduated, are returning to their Home Country, and applied for Extended Coverage as required by the Policy.

A person may not be covered as a Covered Dependent and a Plan Participant at the same time.

The policy does not provide students an insured term off. However, an extra-contractual accommodation may be available, subject to prior written approval by the carrier. Insured terms off are available in only two circumstances: for medical necessity or vacation. Insured terms off are limited to one term per school year. A "term" refers to a single session of the school's academic year (e.g., a school on a semester system has three terms – fall, winter, and summer – and a school on a trimester or quarterly system has four terms – fall, winter, spring and summer). A student may not utilize an insured term off for both medical necessity and vacation in a single academic year. The carrier reserves the right, in its sole discretion, to approve or decline any request for an insured's term off. If a request for an insured term off is permitted, the Covered Student will be required to pay all applicable premium for the insured term off.

Visiting Faculty and Scholars

This section applies exclusively to individuals holding an Exchange Visitor non-immigrant visa, otherwise referred to as a J-1 visa.

J-1 visa holders who possess and maintain current passports and valid J-1 visa status may be considered for coverage under the Policy if engaged in educational activities with the Participating School.

J-1 visa holders will have access to all policy benefits and limits and will be subject to all Policy exceptions and exclusions. In addition, in compliance with Department of State requirements, insured J-1 visa holders who exhaust the stated Policy Year Maximum Benefit will have access to additional J-1 medical benefits of $100,000 per accident or illness. These additional J-1 medical benefits will be subject to all Policy terms, internal benefit limits, exceptions, and exclusions.

Optional Practical Training

An eligible Optional Practical Training ("OPT") student who holds the applicable F-1 visa may be eligible for coverage after graduation while the student participates in OPT work directly related to the major area of study. STEM OPT extension students are eligible for a maximum of twenty-four months coverage from the date the student is approved for OPT. All other OPT extension students are eligible for a maximum of twelve months coverage from the date the student is approved for OPT.

OPT students who fail to maintain OPT eligibility or who have transitioned to H-1B status will no longer be eligible for coverage.
