SCHEDULE OF BENEFITS

This Policy document is intended to be read in its entirety. To understand all the conditions, exclusions, and limitations applicable to its benefits, please read all policy provisions carefully. Only those benefits elected by each Participating School and shown on its Schedule of Benefits will apply to its enrolled Eligible Students.

The Company has appointed the Program Manager to administer the Policy on its behalf. References to the Program Manager throughout this Policy include the Company where appropriate. Any notice delivered to the Program Manager shall be considered received by the Company.

The *Schedule of Benefits* provides a brief outline of the coverage and benefits provided by the Policy. The benefits summarized in this Brochure may be subject to definitions, exclusions, and provisions. Please see the Policy for full details.

Eligible Student: An Eligible Student is a registered and enrolled student of a Participating School who is all of the following:

1. a legal resident of a country other than the United States, its territories, or possessions;
2. enrolled and actively engaged in Full-Time Studies;
3. has not been granted permanent residency status in the United States, its territories, or possessions; and
4. holds and continually maintains an F-1, J-1, M-1, Q-1 or other approved category of student visa or immigration status.

For avoidance of confusion, a Covered Student is no longer enrolled and actively engaged in Full-Time Studies upon graduation; a Covered Student and his or her Covered Dependents, if any, become ineligible for coverage under this Policy upon the Covered Student's graduation. However, the Covered Student may be entitled to continued coverage after graduation if one of the following exceptions apply:

5. The Covered Student is approved for OPT and, on that basis, qualifies for continued coverage under the terms of this Policy document; or
6. The Covered Student qualifies for Extended Coverage because they have graduated, are returning to their Home Country, and applied for Extended Coverage as required by this Policy document.

The policy does not provide students an insured term off. However, an extra-contractual accommodation may be available, subject to prior written approval by the carrier. Insured terms off are available in only two circumstances: for medical necessity or vacation. Insured terms off are limited to one term per school year. A "term" refers to a single session of the school's academic year (e.g., a school on a semester system has three terms – fall, winter, and summer – and a school on a trimester or quarterly system has four terms – fall, winter, spring and summer). A student may not utilize an insured term off for both medical necessity and vacation in a single academic year. The carrier reserves the right, in its sole discretion, to approve or decline any request for an insured's term off. If a request for an insured term off is permitted, the Covered Student will be required to pay all applicable premium for the insured term off.

A person may not be covered as a Covered Dependent and a Plan Participant at the same time.

Visiting Faculty and Scholars

This section applies exclusively to individuals holding an Exchange Visitor non-immigrant visa, otherwise referred to as a J-1 visa.

J-1 visa holders who possess and maintain current passports and valid J-1 visa status may be considered for coverage under the Policy if engaged in educational activities with the Participating School.

J-1 visa holders will have access to all policy benefits and limits and will be subject to all exceptions and exclusions indicated herein. In addition, in compliance with Department of State requirements, insured J-1 visa holders who exhaust the stated Policy Year Maximum Benefit will have access to additional J-1 medical benefits of \$100,000 per accident or illness. These additional J-1 medical benefits will be subject to all policy terms, internal benefit limits, exceptions, and exclusions.

SCHEDULE OF BENEFITS (CONTINUED...)

Optional Practical Training

An eligible Optional Practical Training (“OPT”) student who holds the applicable F-1 visa may be considered eligible for coverage after graduation while the student participates in OPT work directly related to the major area of study. STEM OPT extension students are eligible for a maximum of twenty-four months coverage from the date the student is approved for OPT. All other OPT extension students are eligible for a maximum of twelve months coverage from the date the student is approved for OPT.

OPT students who fail to maintain OPT eligibility or who have transitioned to H-1B status will no longer be eligible for coverage.

The Policy provides different levels of benefits and copays depending on where the Covered Person chooses to receive care or whether the Covered Person uses the services of a Participating Provider.
